A Word of Thanks  Once more we wish to extend our thanks to our increasing thousands of customers for their orders last season. It is our aim to sell nothing but the best, and our watchword of Quality, Service and Price is ever before us. Many of our friends prevailed on their friends to order for the first time last season and we take this opportunity of extending our thanks for this double kindness. We regard our customers as old friends, as they are, and we hope to merit the same kindly and friendly assistance this year as we have in the past.

Non-Warranty  We exercise great care to have all seeds, bulbs, trees or plants pure and reliable, but we give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, trees or plants we send out, and we will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

Our Guarantee  We hold ourselves responsible for the safe arrival of goods in first-class condition. In this way you are protected against loss. If the goods do not arrive in first-class condition do not set them out—simply return the goods and wrapper to us at our expense and the order will be refilled.

Complaints or Praises  If our goods and treatment please you, tell others; if anything is wrong, tell us, so we can make it right. Our best efforts will be given to filling all orders in a satisfactory manner.

Please Order Early  The best time is just as soon as this catalogue reaches you. The bulbs may not have arrived by then, but your order will be given immediate attention, and be filled just as soon as the stock arrives. At the first of the season there are no sorts sold out, and, besides, the bulbs flower much better when planted early.

Name and Address  Please be sure to write plainly your full name and address, when sending us your order and remittance. Send also the name of the nearest express office, if bulbs are to come that way, when it's different from the postoffice. We send bulbs by express unless postage for the different sorts as shown in the catalogue accompanies the order.

How to Remit  In making remittances, you may send small amounts in postage stamps. Postoffice or Express Money Orders or Bank Drafts are satisfactory and need not be registered. Cash should always be sent by registered mail.

Advantages of Buying Nursery Stock Now

Dormant in Fall  Nursery stock we have herein listed is dormant in the fall, and can be easily and safely handled. In the spring the weather may come off warm so early as to start the buds before the customer can receive and plant. It is wise to have the stock delivered in the fall, even when planting cannot be done till spring. It can be trenched in carefully and the earliest moment can be seized for setting it out.

Continuous spring rains often cause much loss of time, which could be avoided if the stock were right on hand so that one could take advantage of the first few clear days.

Gets Well Established  Stock planted in the fall gets well established in its new position and so gets an early start in the spring, making a good growth the first season.

Fruit the First Summer  When Strawberries, Currants, Raspberries, Blackberries, Gooseberries, etc., are planted in the fall, they produce the first summer. Rose bushes and Shrubs set out in the fall bloom freely the first summer.

Gets Benefit of Early Rains  Nursery stock planted in the fall gets the benefit of late fall and early winter rains, whereas stock planted in the spring frequently has to fight for life through a dry season, resulting in a stunted growth.

Helpful Hints on Growing Flowers From Bulbs

Bulb Flowers  are not only the easiest cared for of all flowers, but they are certain to bloom abundantly.

Plant Early  Outdoor planting should be done early in the fall to make certain of strong, healthy plants, vigorous foliage and beautiful blossoms.

Any Good Soil  Bulbs grow well in most any good garden soil, if a little time is taken to prepare the beds before the bulbs are planted. During September give the ground a good coating of well-rotted manure and turn over the soil with a spade, about a foot deep, mixing the manure well into the soil, breaking up the lumps. A dressing of bone meal will also prove valuable.
The Flowers, Plants and Flower Holders listed on this page are appropriate and acceptable by all as a Xmas Gift as well as for other occasions. The prices listed include packing.

**CEL-O-GLASS**

Cel-O-Glass is a high-grade, low-priced substitute for glass. It is unaffected by rain, hail, snow, sun or wind; it can be bent or cut to any desired shape and is practically indestructible. It is made by treating mesh wire cloth in such manner that the open spaces between the strands are filled with a clear, transparent, tough but flexible substance which will not rub or peel off, dry up or become brittle. It is radically different from ordinary glass, yet in practical use answers all demands and offers very decided advantages. Excellent for cold frames, hotbeds, greenhouse sides and partitions, poultry house windows, barn doors, windows, etc. Weight per roll of 300 sq. ft., 44 lbs. Per sq. ft., 16c. Roll 3 ft. wide, 100 lineal feet, $45.45. Sample and descriptive pamphlet enumerating its many uses sent free of charge upon request.

**SELECTED VEGETABLE PLANTS**

All plants and roots strong and well rooted.
CHAS. C. NAVLET CO.'S

**Hyacinth Bulbs**

**IMPORTED STOCK**

**Our First Size**

For those who desire to grow and produce Hyacinths of the grandest and largest size and finest quality, we recommend **NAVLET'S FIRST SIZE HYACINTH BULBS**. They are extra choice, large, round, solid bulbs. Selected especially for the most critical trade. They will produce the extra large, handsome flowers so highly prized, and are excellent for forcing and pot culture.

**Bedding Size**

This grade is usually bought, and we sell more of this price and size bulb than any other. **NAVLET'S BEDDING HYACINTHS** are extra selected bulbs.

**Outdoor Culture**

The preferable season is September, October, November and December, but bulbs give good results if planted later. Hyacinths should be planted from two to three inches below the surface and five to eight inches apart. After flowering, if the beds are wanted for late Spring planting, take up the bulbs, top and roots, and "heel in" in some corner of the garden until the bulbs mature, after which they should be spread out in an airy room to dry, and kept in a cool dark place until time for replanting the following autumn.

**Indoor Culture**

Bulbs for winter blooming can be planted from September until December—the earlier the better. Plant one bulb to a four-inch pot, or three to a six-inch pot. Place in a cool dark cellar, watering well. The whole success of pot culture depends on getting the roots well established in the pots, at a low temperature, before you begin to force the tops. From three to four weeks is not too long to leave them in a dark place. After this the bloom is easily developed by giving light, heat and water, and one can have a supply of flowers from Christmas until Easter by regulating the time of bringing them to light.

**Glass Culture**

When it is desired to grow Hyacinths or Narcissus in water they should be placed so that the base of the bulb merely touches the water. The glass should then be set in a cool, dark place, until filled with roots, when they should be brought into the light. Every few days fill the glass with water. Give as much fresh air as possible in a temperature of about 50 degrees until the spikes are developed.

Mixture of above NAVLET'S BREEDER TULIPS

Per dozen, 90c; per 100, $6.50
Navlet's Darwin Tulips

Darwins are the most satisfactory of all Tulips. They are stately in appearance, attaining a height of 24 to 30 inches, and producing beautiful globular flowers of heavy texture, in a large range of colors. They bloom in April and May and are unsurpassed for bedding and cutting.

Tulips are a very satisfactory flower, both for garden and pot culture. They require very little attention and will grow in any fairly good soil.

Plant bulbs about 3 inches below the surface, eight to nine inches apart.

Prepare your soil by applying a coating of bone meal or pulverized sheep manure (listed in this book) and deep spading.

If Wanted by Mail, add 6c Per Dozen; 10c per 50; 12c Per 100, Postage.

**DARWIN TULIPS**

The Darwin type of Tulips are the favorites. They excel in color, form, length of stems, etc.

They are unsurpassed for grouping or borders. They are as well good keepers as cut flowers.

HOLLAND GROWN DAFFODILS 

Our list contains the best Daffodils. Daffodil blossoms are borne on tall strong stems and are exceptionally fine for cutting. They are very effective in beds or used for borders, the long stems with their graceful yellow or yellow and white blossoms standing above the foliage. The bulbs can be put away and kept for a second year planting. After they are through blossoming allow the top growth to dry back to the surface of the soil, then lift the bulbs and keep in a dark dry place in dry sand or saw-dust. Daffodils bloom in March and April.

For pot culture plant 2 or 3 bulbs in a 6-inch pot, leaving the top of each bulb just above the surface. Keep well watered in a dark place for two or three weeks before bringing in the house. For outdoor culture plant the bulbs about 4 inches below the surface and 8 to 12 inches apart.

Daffodils and Narcissus add 8c per doz.; 18c per 50; 28c per 100, postage.

The Crocus is one of the first flowers of the spring, and one of the best for blooming in the house during the winter. Half a dozen bulbs may be planted in a pot, and will make a pretty show. For garden culture plant the bulbs two inches deep and two or three inches apart. They are so cheap and so pretty they ought to be found in every garden in abundance. They bloom splendidly when planted on the lawn. They lift up their broad heads through the sod very early and give the lawn a charming aspect. The sorts we offer are especially strong and fine.

MONTBRETIA
(Postpaid)

A summer flowering bulb, bearing bright colored flowers on long, graceful spikes; foliage is long and graceful, and resembles that of gladiolus. Large bulbs, 12 for 40c; 100 for $2.50. Plant from October to March.

PAEONIES
(Postpaid)

Make a glorious display when planted in beds on the lawn or planted singly along a walk or herbaceous border. The roots should be placed so that the crown is covered with two inches of soil. Choice double-flowering, pure white, crimson and rose pink, strong roots, 75c each, 12 for $7.50. Plant from October to June.

LILIES

Lilies succeed best in partial shade. Set bulbs five inches below the surface and 12 inches apart. Water only lightly until they are well rooted, but liberally when about to bloom. (Add 8c per dozen postage.)

LILIAM AURATUM—The Gold-Bayed Lily of Japan. The immense flowers—white, thickly dotted with crimson and beautified with a wide golden-yellow band running through the center of each petal—measure nearly a foot in width, and are borne in great clusters. Extra large bulbs 25c each; $2.50 per dozen; 100, $17.50.

LILIAM ALBUM—Snow-white Lily with very fragrant flowers. Extra large bulbs, 30c each; $3.00 per dozen; 100, $21.00.

LILIAM GIGANTEUM—Plant sturdy growth, black marked stems. Flowers largest of pure white, longiflorums. 30c each; $3.00 dozen; $20.00 per 100.

LILIAM HENRYI—The flowers are a rich apricot yellow with a few brown spots; grows 3 to 5 feet high; very hardy and free flowering. 25c each; $2.50 per dozen, $17.50 per 100.

LILIAM RUBRUM—Magnificent. White flowers are spotted with red, and have a deep rose band running through the center of each petal. Extra large bulbs 25c each; $2.50 per dozen; 100, $17.50.

LILIAM TIGRINUM—The grandest of the Tiger Lilies. Produces extremely large pyramids of flowers—orange-red, spotted with black. Very showy. Large bulbs 25c each; $2.50 per dozen; 100, $17.00.

LILIAM CANDIDUM—Annunciation or St. Joseph Lily. The well-known garden Lily, with the snow-white fragrant blossoms. Extra large bulbs 30c each; $3.00 per dozen; 100, $22.50. Plant all lilies from August to November.

LILIAM FORMOSUM—The greatest acquisition made in many years. The remarkably short time required to bring them into flower, and the certainty to produce a profusion of blooms, and also the ease with which they can be made to flower at the desired period, such as Christmas, Easter and other special occasions, render them invaluable. The flowers are delightfully fragrant, pure waxy white, of great substance, and if cut as soon as they open, or partially open, they can be kept for two weeks. If planted early will bloom for Easter.

LILIAM EASTER. 25c EACH—12 for $2.50

CHINESE SACRED LILY

"THE WATER FAIRY FLOWER"

(Add 14c per dozen, postage)

15c each; $1.50 per dozen; $10.00 per 100

The "Shui Sin Far," or "Water Fairy Flower," as it is called by the Celestials, is a variety of Narcissus bearing in lavish profusion chaste flowers of silvery white, with golden yellow cups. They are of exquisite beauty and entrancing perfume. It is grown by the Chinese according to their ancient custom, to herald the advent of their new year and as a symbol of good luck. They do well in pots of earth, but are novel and beautiful grown in shallow bowls of water, with enough fancy pebbles to prevent them from toppling over when in bloom. A dozen bulbs started at intervals will give a succession of flowers throughout the winter.

CALLA LILIES

(Postpaid)

TRUE YELLOW CALLA—This rare and beautiful novelty is entirely distinct and unlike all other forms of Yellow Calla. It has the same habit of growth as the white variety. Price 25c each; $2.50 dozen; $17.50 per 100. postpaid.

SPOTTED LEAF CALLA—An exceptionally pretty and curious plant; pure white, dark throated flowers. Rich green leaves, spotted all over with white. Grows and blooms freely either in the house or garden. Large bulbs 25c each; $2.50 per dozen, postpaid.

WHITE CALLA, or Lily of the Nile—White flowers. Large bulbs, 15c each; $1.50 per dozen, postpaid.

Plant Calla Lily from August to March.

PANAMA EXPOSITION MIXTURE

Visitors to the Panama-Pacific Exposition during 1915, who were there during July, August, and September, will never forget the blaze of brilliance that caught the eye, nor the thrill with which they first beheld the Gladiolus on exhibition there. Flower lovers from all parts of the world gathered around them daily to watch them in their matchless beauty, and the chief attractions were the ones that won the prizes. As soon as the medal winners' awards were announced we arranged to buy some of the prize-winning bulbs and it is from these prize winners that our Panama Exposition Mixtures are grown. They are well worthy the name. This mixture consists of the choicest varieties, and the richest in colorings known in Gladiolus. If you were to pay $2.00 per dozen for any Gladiolus they would not excel in richness of color or sizes of flowers. Some are ruffled on long stems. Every bulb producing flowers of mammoth size. If you are a lover of Gladiolus do not fail to buy at least one dozen of the Panama Exposition Mixture. When you see the beautiful flowers they produce, you will say they are truly wonderful.

FARM SEEDS

WHITE FOR QUANTITY PRICES

ALFALFA

This is truly the farmers’ friend. It stands drought and dampness. As a fertilizing, land-enriching crop it is unequalled. One seeding stands for years. All cattle are fond of it. It grows in most any kind of soil, and yields more with each successive year. One bushel will sow 75 acres.

MAMMOTH RED CLOVER

Sapling Clover—Grows much larger and lasts longer than the common Clover, requiring only an inch for an acre. Lb. 40c; postpaid; 10 lbs. $3.50, delivered free.

MELOLITOS INDICA

Bitter Clover—Starts very early and makes a good growth during the winter. Sows itself freely, and can be grown without much care. Lb. 15c; postpaid; 10 lbs. $1.00, delivered free; 100 lbs. $5.50.

CLOVER GRASS

Dactylis Glomerata—One of the most valuable of all pasture grasses, produces a immense quantity of forage, and well adapted for growing in orchards. 65 lbs. required per acre. Lb. 35c; postpaid; 10 lbs. $3.00, delivered free.

SUDAN GRASS

An annual forage plant used both for hay and silo. Cut with a mower just after full bloom. Two cuttings are assured, and in some places four. It yields from two to eight tons per acre, depending upon whether irrigated or not. Plants late in spring after frost is past; if drilled in rows 18 inches apart, four to six pounds per acre is required; if in rows 36 inches apart, two to four pounds per acre, and if sown broadcast 15 pounds per acre. Lb. 30c; postpaid; 10 lbs. $2.50, delivered free.

LAWN GRASS SEEDS

Kentucky Blue Grass—Produces a Firm, Deep, Velvety, Elastic Turf of Beautiful Emerald Green

The best for lawns and pleasure grounds. Has no tendency to soil or grow in clumps. It roots deeply and holds its beauty for long periods. It is the most popular kind of grass in the world. It requires careful treatment and constant attention. We sell large quantities of this seed. It is the most popular kind of grass in the world. We offer it to growers in quantities of 100 pounds per acre. Lb. 85c; 10 lbs. $8.00, postpaid.

SAN JOSE HIGH SCHOOL LAWN MIXTURE

CHAS. C. NAVLET CO.’S SAN JOSE HIGH SCHOOL LAWN MIXTURE contains eight different grasses which keep the lawn green all the year round. A mixture of the Country Clubs and other large users of grass seed, are using mixtures of other grasses, with our White Clover, in order to produce a most compact lawn. Easily cared for and withstands the hard usage of birds. Sow 8 to 10 pounds to the acre. Lb. $1.00; 10 lbs. $8.50, postpaid.

WHITE CLOVER

Of dwarf habit, with creeping stems, rooting at the joints, which account it makes an excellent turf that stands constant tramping. Many of the Country Clubs and other large users of grass seed, are using mixtures of other grasses, with our White Clover, in order to produce a most compact lawn. Easily cared for and withstands the hard usage of birds. Sow 8 to 10 pounds to the acre. Lb. $1.00; 10 lbs. $8.50, postpaid.

LAWN GRASSES

PANAMA PACIFIC MIXTURE—This mixture of hardy grasses forms a very thick, strong turf that will stand hard usage. This mixture has been proven to be one of the best for appearance and resistance. We recommend it. 75c lb.; 10 lbs. $6.50, postpaid.

AUSTRALIAN OR PERTINAX RYE GRASS—An extremely hardy short requiring only fertile soil and withstands more hardships. Used extensively and becoming very popular. Lb. 30c; postpaid; 10 lbs. for $2.50, postpaid.

PACIFIC RYE GRASS—The best grass for a straight lawn in sandy soil. Longer-lived and much firmer in leaf than the hardy Australian Rye Grass. Lb. 35c; postpaid; 10 lbs. for $3.50, postpaid.

RED TOP GRASS—This mixture of hardy grasses does to blend with other kinds of grasses. 45c lb.; 10 lbs. $4.00, postpaid.

SHADY MIXTURE—This is our own mixture. It has proven to be very successful in shady spots under trees, climbing, etc. This mixture has succeeded where others have failed. $1.00 lb.; 10 lbs. $9.00, postpaid.

LIFFPRA—the Drought-Resisting Lawn Plant—A new and remarkable substitute for Lawn Grass that solves the problem of maintaining a beautiful lawn through the dry California summer. Liflpa is a creeping lawn plant, slightly resembling clover in appearance. It covers the ground with a thick, smooth mat of green. Requires little water, and will even go through a summer without any water. It does not grow from seed, but is propagated by planting little pieces of the turf with roots and soil adhering. Each box contains fifteen inches square of solid Liflpa Turf, sufficient to plant 100 square feet of lawn. For 100 boxes, $10 ly express, not prepaid; 50 boxes, $5.00 per box; or 25c per root box, postpaid.

HORSE BEANS

Broad Windsor or Horse Beans—Used extensively for stock forage. Lb. 30c; postpaid; 10 lbs. $1.50, delivered free. (Write for special prices on large quantities.)

COW PEAS

Black Rye—Used largely for green manure. It is also valuable if allowed to mature the seed when the dry vines can be plowed under and the seed used to grind as feed for stock. Per lb. $1.00, postpaid; 10 lbs. $10.00, delivered free.

CANADIAN FIELD PEAS

Valuable for cattle feeding and for green manure, and is also used in small quantities for seed. Lb. 30c; postpaid; 10 lbs. $1.50, delivered free.

VETCHES OR TARES

Exceedingly nutritious—much more so than Clover—and may be fed with safety to all kinds of stock. It is perfectly hardy and remains green all winter. It should be sown during August and September, mixed with Rye, which serves as a support for the plants, or in spring with Oats or Barley. Per lb. 30c; postpaid; 100 lbs. for $6.00.

FOR QUANTITY PRICES

BURR CLOVER

The native forage plant of California. Easily cultivated. Grows all winter and well into the summer. We offer only “Hulled Seed,” which is much easier to sow than in the burr. Lb. 30c; postpaid; 10 lbs. $2.50, delivered free.
**SPECIALTIES**

**PLANTS**

**GAILLARDIA**  
*(Sunset)*  
**Strong blooming plants**  
25¢ Each. $2.50 Per Dozen, Postpaid.

A variety that should be in every garden on account of its beautiful semi-double flowers which are very massive, borne on long stiff stems. The petals are thick and leathery. Flowers measure three inches in diameter. Each flower runs from bright shades of bronze to scarlet and gold on the ends of each petal. A few of these in your garden will keep your home ablaze, with color almost the year round.

**Sunset Gaillardia** is one of the best cut flowers in the San Francisco market in winter. Plants are perennial and a rival to the Carnation. For the past three years this flower has been a novelty in the flower world.

**DELFPHINIUM**  
*(New)*  
*(Hardy Larkspur)*

50¢ Each. $5.00 Per Dozen, Postpaid.

Year by year Delphiniums are becoming a greater favorite. Every so often a novelty is produced. The one we are offering is one of the largest flowering productions we have ever been able to secure to offer to our customers. Each flower is as large as a dollar piece. The stems grow four to five feet and on top of each stem you will find ten or fifteen inches of flowers running in all shades of dark blues and turquoise blues.

Our plants will bloom the first season after planting. Each plant is one year old. Blooms early in spring to late fall.

The colors of the Delphiniums harmonize with any other color in your garden.

Chas. C. Navlet Co.'s Seedless Blackberry
EARLIEST—HANDSOMEST—JUICIEST—MOST PRODUCTIVE—MOST PROFITABLE BERRY EVER INTRODUCED

40c Ea. Post Paid 12 for $3.50 Post Paid
PLANT FROM NOVEMBER TO APRIL

Chas. C. Navlet Co.'s wonderful Seedless Blackberry grows in popularity each season. Our orders for this matchless berry increase every year—and repeat orders for more plants are constantly being received from customers who have tried them out and who want to plant more of them.

THIS IS THE EARLIEST—HANDSOMEST—JUICIEST—MOST PRODUCTIVE—MOST PROFITABLE —AND MOST SATISFACTORY BERRY EVER INTRODUCED FOR BOTH HOME AND MARKET GROWING.

It clearly outclasses all other varieties. It is four weeks ahead of the next earliest berry—and is at its best when other varieties are just beginning to ripen. It is larger than such well-known berries as the Kit-tatiny, Crandall and Lawton—juicier than any berry we have ever tasted—more luscious and richer in flavor than any other—and is by all odds the handsomest looking berry ever shown in the market. IF PLANTED THIS SPRING OR SUMMER IT WILL BEAR SMALL CROP THIS YEAR—and it is the only Blackberry that will bear the first year. While not entirely seedless, it is so nearly so that the few small, round, soft seeds are not noticed in eating. As a profit producer it is unbeatable—and as a berry for one's own table it is unsurpassed. ORDER AT LEAST ONE OF THESE SEEDLESS BLACKBERRY PLANTS—DON'T FAIL. Plant from December to April. Be first in your town to grow these berries.

MAMMOTH BLACKBERRY
(or BLACK LOGAN)
The Mammoth grows entirely unlike other Blackberries in cultivation. It is a rapid grower, trailing upon trellises. Canes are large and strong. Foliage large, healthy, thick and a deep green color. Enormously productive and exceedingly early. Fruit enormously large specimens, often reaching 2½ inches in length. Seed small and soft. Core small, soft and palatable. In size and extra fine flavor, the Mammoth surpasses all other varieties of Blackberry, with the single exception of our Wonderful Seedless Blackberry. One of the finest fruit novelties. Plant from October to April.

TWO-YEAR-OLD ROOTS, 25c each; $2.00 PER 10, POSTPAID
PLANT FROM NOVEMBER TO APRIL

HIMALAYA GIANT BLACKBERRY
PLANT FROM NOVEMBER TO APRIL

A late Blackberry coming after the other berries are gone and ripening over a period of several weeks. Especially desirable for family use. In northern California they are seldom injured by frost, as they blossom after all frosts are over. Like the Loganberry it must be grown on a trellis—the vines under favorable conditions growing 15 or 20 feet. The berries grow in bunches, are of excellent flavor and the yield is tremendously large. 25c PER PLANT: $2.00 PER 10, POSTPAID; $15.00 PER 100, BY EXPRESS.

CORY'S
THORNLESS BLACKBERRY
PLANT FROM NOVEMBER TO APRIL

A WONDERFUL NOVELTY—Perfectly Thornless—The Cory Thornless Blackberry grows like the Mammoth Blackberry. It is a rapid grower: canes are large and strong; foliage large, thick and deep green in color; fruit enormously large, very early. With one exception, this berry resembles the well-known Mammoth Blackberry excepting the canes are entirely thornless. Plants, 25c each, postpaid; 10 for $2.50, postpaid.

LOGANBERRY
Plant from November to April

The Wonderful Blackberry-Raspberry
TWO-YEAR-OLD ROOTS, 25¢ EACH; $2.00 PER 10, POSTPAID
READY FOR DELIVERY

The Loganberry originated in California. It is unlike any other berry in existence. A hybrid between the Raspberry and the Blackberry, it partakes of the nature of both in appearance, but has a delicious vinous flavor peculiar to itself. Hardy as a rock—stands the driest weather without flinching—and fruits in the poorest soil. The bushes are of low-growing habit and have strong canes without thorns. One of the most profitable berries you can cultivate.

We do not charge for packing and cartage on berry plants, and all orders are guaranteed to arrive in good growing condition. Order your berry plants now. We fill your order in rotation as soon as conditions permit transplanting.

The Dewberry is a most wonderful berry, ripening an immense crop of fruit before late Raspberries are gone. In some localities it ripens in May. Large, firm, of superior flavor and very attractive. A rampant grower and may be trellised like grapevines. Roots from tips like Cap Raspberries. Those who have grown it consider it one of the greatest berries ever introduced. It certainly is, if extreme earliness, enormous productiveness and finest quality count for anything. Perfectly hardy, standing extreme cold, drought and heat equally well.

EVERY GARDEN SHOULD HAVE A FEW BERRIES
CHAS. C. NAVLET CO.'S SUPERB RASPBERRY PLANTS

Choicest Varieties for Pacific Coast Growing

RENAREE
The New Wonder in Raspberries

The Renaree has been tried and proven to be far superior to any other Raspberry. The berries are a deep, rich crimson in color, delicious flavor, firm, and can be shipped hundreds of miles. Renaree is the heaviest bearer and bears a fair crop the first year. Hundreds of acres have been set out to Renaree the past two years for market purposes. This berry is being put through a cooling process and shipped to the Eastern markets at a profit. The Renaree is a very prolific bearer and will bear two to one more berries than any other Raspberry. We especially recommend this new-comer in Raspberries and know you will be well repaid if you plant a few. 20c each, postpaid; $1.50 for 10, postpaid; $10.00 for 100, by express. Ready for delivery.

CUTHBERT—"The Queen of the Market"—A standard, hardy variety that endures northern winters and southern summers equally well. The berries—a deep, rich crimson in color. 15c per plant, postpaid; $1.00 per 10, postpaid; $6.00 per 100. Ready for delivery.

GREGG—Best Black Variety—The most valuable of the Black Cap family. The canes grow strongly and vigorously, and under good culture are very productive. The berries are large, covered with heavy bloom, firm, meaty and of fine flavor. The Gregg is unquestionably the best and largest Black Cap Raspberry in cultivation. Berry growers who want a late berry, a handsome berry, a good berry, a productive berry and a profitable berry, should not fail to plant this peerless sort. 20c each, postpaid; 10 for $1.50, postpaid. Ready for delivery.

CURRANTS
Plant from November to April

Leading Varieties—Strong Plants
READY FOR DELIVERY

CHERRY—The largest Red Currant in existence. The berries grow in immense clusters, resembling bunches of red grapes. 30c per plant, postpaid; $2.50 per 10, postpaid.

WHITE GRAPE—This is the hardest white sort ever introduced, and is therefore especially desirable. This and Cherry we consider the best of all Currants. 30c per plant, postpaid; $2.50 per 10, postpaid.

PHENOMENAL BERRY
A Delicious Cross Between the Raspberry and the Blackberry—A Triumph of Luther Burbank

Of this extraordinary berry Mr. Burbank says: "It is larger than the largest berry ever known. It has a bright crimson raspberry color, is as productive as could be desired, and the most delicious of all berries for canning and drying. The berries grow in clusters of 6 to 10 or more each, and the individual berries measure three inches around one way by four inches the other way, and weigh one-quarter ounce each—even larger ones were weighed and measured last season." We have found this berry to be all that is claimed for it—phenomenal in every particular. It tastes and looks like both the Raspberry and the Blackberry. It is one of the most remarkable of all new fruits introduced during this generation. A berry of sterling worth in every particular. It is twice as large and in many ways superior to the new Loganberry, which is being so highly praised. 35c each, postpaid; 10 for $2.75, postpaid; $22.50 per 100, by express.

Banner Strawberry
(Self-Fertilizer)

12 for 40c **DELIVERED FREE** 100 for $2.50 **DELIVERED FREE**

Medium to Large Size—Rich Red Color, Sweet and Finely Flavored—A Wonderful Keeper

A Variety That Has Been Thoroughly Tested and Has Met Every Demand for a First-Class Market Berry

This is the famous "Banner" Berry that has become such a favorite up and down the Pacific Coast. The berries are uniformly of good size and are very finely shaped. On account of their size, shape and color they present a most attractive and appetizing appearance.

It is an extraordinarily-prolific producer, returning a handsome profit to the commercial grower. The vines are of a very vigorous habit—and do not require the same delicate attention as some other varieties. It is easy to grow—and sure to give complete satisfaction. **Choice plants, 12 for 35c; 100 for $2.50.**

Everbearing Strawberry
(Self-Fertilizer)

12 for 35c **DELIVERED FREE** 100 for $2.50 **DELIVERED FREE**

A very vigorous grower, fruit of medium to large size. An even and abundant bearer, of good texture and color. Flavor sweet and delicious.

Three Very Popular Self-Fertilizing Varieties

MAGOON

This self-fertilizing Strawberry is a leader in hardiness and possesses many desirable features. The berries are very large and of fine form. They are bright red in color, and have a very rich, full flavor. The Magoon is especially good where hard winters are the rule—as it will stand the most trying weather. **12 for 35c, delivered free; 100 for $2.50.**

BRANDYWINE

An extra fine, very large and enormously productive medium-to-late Strawberry. Exceptionally sweet, perfect in form and of a rich, glossy crimson color, which permeates the flesh, almost to the center. An ideal dessert berry, unsurpassed for canning and preserving. The plant is a strong, luxuriant grower—succeeds in any soil—and can be always depended upon to yield a bountiful crop. **12 for 35c, delivered free; 100 for $2.50.**

CAROLINA

12 for 40c, Delivered Free 100 for $2.50, Postpaid

This variety is superior to most other varieties. It is earlier, bearing a full crop eight to twelve weeks after transplanting, and sends out more runners and sets more good strong plants quicker than any other variety.

It bears berries continuously all summer; the stems are strong, supporting the fruit well above the ground; the foliage is profuse, shading the berries from the sun and protecting the roots from frost.

Says a well-known grower: "Two hundred plants set out in March yielded a full crop of berries in May and June, and before the following March fourteen thousand plants were sold and more than two thousand plants remained in the row. The second year this row matured berries two weeks earlier than any other variety and bore good large berries all summer." We have only a limited supply of plants which we offer at low prices of **12 for 40c, delivered free; 100 for $2.50.**
Hardy Flowering and Ornamental Shrubs

WE CARRY AN ENORMOUS STOCK OF SHRUBS AND A LIST OF VARIETIES TO SUIT ALL.

Hardy shrubs are among the most popular and most useful of all decorative. Planted singly, in groups, or along the fence, these shrubs with their pretty blooms, attractive foliage, and bright berries beautify the garden throughout the entire season. Many are best showing during the Spring and Summer. The shrubs we send you are large, strongly rooted, healthy, vigorous plants—just the kind you would select for yourselves if you had free access to our nursery. Purchasers may pay at transportation at prices listed below. No extra charge for packing.

ACACIA BAILEYANA

The earliest of all Acacias to bloom. Usually in flower by New Year’s. Foliage has an intense silvery hue and flowers are deep golden yellow. Plants 1 ½ to 2 ft., $1.00; 3 to 4 ft., $1.25 each; 12 for $13.50.

ACACIA, Mollissima—Yellow Flowers. Foliage: 5 to 6 ft., $1.00 each; per 10, $9.00.

ACACIA, Floribunda—Heavy bloomer. 3 to 5 ft., 65c each; per 10, $6.00.

ACACIA, Deaftata—Yellow flowers. Foliage (special), 3 to 4 ft., 50c each.

BOXWOOD

Dwarf Boxwoods for borders, 4 to 6 in. high, 75c per 10, $6.00 per 100, delivered free.

BROOMS (Cytisus) Spanish

Very ornamental, free-flowering upright growing shrub; will succeed in almost any soil or situation. Flowers yellow, produced very freely in the Spring and Summer, on long pendulous round leafless branches. 1 to 2 ft., 50c; 2 to 3 ft., 75c; 5-gal. can, 3 to 4 ft., $2.00.

CALIFORNIA PRIVET

The most popular hedge plant. Never troubled by insects. 2 to 3 ft., $1.00 for 10; $7.50 for 100; 3 to 4 ft., 10 plants for $1.50, 100 for $12.00.

ITALIAN CYPRESS

Tail, tapering; branches erect, growing parallel with trunk; branches from-like, smooth, deep green. Used generally on each side of entrance or on outside of homes. 1 ½ to 2 ft., $1.50 each; larger sizes at $1.00 per foot.

LEMON VERBENA

Small plants, 50c, 75c, $1.00.

LILAC

Purple or white, 2 to 3 ft., $1.00 each. Grafted purple, white. French varieties. Large, in cans, $2.50 and $3.50.

PYRACANTHA

AUGUSTIFOLIA—Sometimes known as “Cotoneaster Augustifolia.” Growth is very spreading. Leaves are narrow. The berries, borne in great abundance, are lemon at first, deepening later to ruddy-orange. Plants: 1 ½ to 2 ft., 75c; 10 for $7.50; 3 to 4 ft., $2.50 each; 12 for $25.00.

PYRACANTHA Lalanda—Variety of stronger growth, making longer shoots that can be trained against a wall if desired. Leaves a little longer. Berries orange yellow. There is not a very marked difference between this variety and type. 3 to 4 ft. in tubs, $2.50.

PYRACANTHA crenulata (Chinese Evergreen Hawthorn)—Very distinct from other sorts. Growth is more compact, branches slender, leaves longer, narrow and glossy. New growth very ruddy. Flowers about the same, but berries clearer, bright red. It is about the earliest red berry-bearing shrub as color is fully developed by August. Will endure considerable shade. 2 ft., $1.50 each; 3 to 4 ft. specimen plants in tubs, $2.50 each.

PYRACANTHA Yunnanensis—A vigorous growing variety of recent introduction. Bright glossy foliage and beautiful display of bright coral red berries. 7-in. pot, $1.00.

ACACIA TERNATA (Mexican Orange Shrub)

A fine shrub with green leaves and a profusion of white flowers resembling orange blossoms and almost as fragrant. Plants, 1 to 1 ½ ft., $1.00 each; 12 for $10.00.

CHRISTMAS BERRY (Toyot)

Our native shrub—too well known to require elaborate description. We offer strong nursery grown plants. Plants 8 to 8 in., $1.00 each; 12 for $10.00.

DAPHNE

A low growing shrub. Fragrant, white or pink flowers. 1 ft., 25c each; 3 ft., 25c each. No more importations.

ENGLISH HOLLY

A well known plant bearing brilliant red berries. Most plants sold are seedlings and have very little value—ours are grafted stock and self-fertile. They can be relied upon to bear berries. Plants, 3 to 4 ft., $5.00 each; 12 for $50.00.

ERICA (Heath or Heather)

MEDITERRANEAN—One of the most popular Heaths. Forms a densely branched perfectly globular shrub, with dark green leaves. In winter it is simply covered with tiny pink flowers. The hardiest Erica. 5-in. pots, 75c; 6-in. pots, $1.25; 2 to 3 ft. balled, $2.50 each.

MELANTHERA—Another splendid winter-blooming Heath. Finest and most reliable is a cut flower. Flowers a little larger, rosy color. A wonderful bloomer. 6-in. pots, $1.00; large plants, balled, 2 to 3 ft., 50c each.

ESCALLONIA

BERTERIANA—Shrub of erect habit and good growth. Foliage dark green and glossy. Flower white, rather small, in very long, loose, erect panicles. Continuous bloomer. 3 to 3 ½ ft., 50c each.

RUBRA—Hardy evergreen shrubs with rounded dark, glossy green foliage, producing flowers in red in large terminal panicles during the entire summer. Of compact growth. 1 ½ to 2 ft., $2.00 each.

SPIREA or Bridal Wreath

Beautiful flowering shrub. Pure white double or single—strong plants. 75c and $1.00 each.

SNOWBALL (Viburnum)

Well-known shrub bearing large, globular clusters of white flowers during late spring. Foliage colors brilliantly in fall. 8 to 10 in., 50c; 12 to 18 in., $1.00; 3 to 4 ft. in 5-gal. cans, $3.00.

VERONICA

ANDERSONII VARIEGATA—One of the best evergreen flowering shrubs. Flowers violet blue, leaves glossy green margined silvery white. 75c each. Field grown plants $1.00 and $1.50 each.

IMPERIALIS—One of the best of the species. Has large dense spikes of amaranth-red flowers. Leaves glossy green. 75c each. Field grown plants, $1.00 and $1.50 each.

PRIZE WINNING STRAINS
MAMMOTH FLOWERING RUDDLE VARIETIES
12 Plants 35c; 100 Plants $2.25, Postpaid

For years our Giant Flowering Ruffled Pansies have been the delight and admiration of Pansy lovers everywhere. We have developed truly marvelous strains—Pansies with blooms of extraordinary size—wonderfully ruffled, and undulated from center to circumference. The flowers are not only gigantic in proportions, but are nothing short of perfect in form, and the colorings are indescribably rich and varied. They include every tint and hue in endless variations and combinations, are gloriously blotched, banded, mottled, striped, and margined. The blooms are borne on long stiff wiry stems well above the foliage. Their substance and thick texture enables the flowers to present BOLD OPEN FACES EVEN DURING RAINY AND WINDY WEATHER AND ON HOT SUMMER DAYS. THEN OTHER PANSIES WOULD BE BEATEN OR WILTED DOWN. The plants we send are of the very best—strong, full of life, with large vigorous roots. We absolutely guarantee them to please you completely. You will make no mistake in ordering Chas. C. VIOLET PLANTS SWEET SCENTED

Ready for Delivery the Year Round

A BEAUTIFUL SINGLE

CALIFORNIA—The largest and most productive Violet in cultivation. The flowers are single in form, and while almost as large as a silver dollar, they have that sweet simplicity peculiar to the Violet. The color is pure, rich violet-blue and does not fade. The flowers are borne on long stems, 10 to 14 inches in length, well above the foliage, which is an unusual feature among Violets. The foliage is especially dark, very large and thick, and impervious to disease of all kinds. This great Violet is grown by the millions for its flowers which bring the highest prices. Plants, 12 for 50c, postpaid; 100 for $2.50, postpaid.

MARIE LOUISE—A superb double. This beautiful Violet is a great favorite. It is a prolific bloomer and will thrive in shady places where most plants will not do well. The foliage is extremely luxuriant and of a pleasing glossy green. The large double blooms are exquisitely perfumed and are borne on long, strong stems. They are a rich mauve in color. This superb Violet is a wonderful keeper—and will stand a six days' trip in shipping—which has proven this in our own experience. It would be impossible to say too much for the Marie Louise. Plants, 12 for 50c, postpaid; $3.50 per 100.

PRINCESS OF WALES-A glorious and very fragrant variety of fine habit—steady growth and justly famous for its early and continuous blooming and the immense number of flowers it bears. It is a distinct type of the California Violet—being a lighter purple. The flowers average larger than a silver dollar, and are borne on gracefully poised stems from 12 to 14 inches long. Plants, 12 for 50c, postpaid; 100 for $3.50.

PURPLE KING—This California Giant Violet will give four times as many blooms in season as the Princess of Wales—at the same time this is not said in disparagement of the Princess of Wales, for this gigantic Violet is in a class by itself and blooms are twice the size of the Purple King and are borne on much longer stems. For size, order Princess of Wales—for profusion of flowers, order the Purple King. You have never seen a Violet bear so abundantly as this. It is a perfect marvel. And while the blooms are of only medium size, they are, nevertheless, perfect in form with a soft velvety sheen that is indescribably attractive. One of the chief features is the fact that they will keep a week after picking. The San Francisco and Bay nursemens grow as many Purple King Violets as any other kind. Plants, 12 for 50c, postpaid; 100 for $3.50.

DOUBLE SWANLY WHITE—A reliable and liberal bloomer. The exquisitely fragrant flowers are of immaculate whiteness, perfumed, for double, and of a very large size. This is the only White Violet that is extensively grown by professional florists. Plants, 12 for 50c, postpaid; 100 for $3.50.

SHRUBS

(SMALL PLANTS)

CHOISYA TERNATA (Mexican Orange Shrub)—A fine shrub with green leaves and a profusion of white flowers resembling orange blossoms and almost as fragrant.

EUONYMUS JAPONICUS—Leaves variegated golden. Have a very narrow margin of green. Growth slow and compact.

EUONYMUS AUREO—Branches green, leaves yellow, dark green around edges.

ERASTUS BERBERIANA—Shrub of erect habit and good growth. Foliage dark green and glossy. Flowers white, rather small, in very long, loose, erect panicles. Continuous bloomer.

ERASTUS RUBRA—Hardy evergreen shrubs with rounded dark green foliage, produced flowers in red in large terminal panicles during the entire summer. Of compact growth.

ITALIAN CYPRESS—Tall, tapering; branches erect, growing parallel with trunk; branches froth-like. Leaves smooth, deep green. See illustration. Used generally on each side of entrance or on outside corners of homes.

LONICERA HEDERA—Half-inch dark green ovate leaves; fine for hedges; can be pruned in any form; a rapid grower.

VERONICA BUFOPLIA—Dwarf in habit, foliage green, glossy, thick, white flower spikes one inch long.

VERONICA IMPERIALIS—One of the best of the species. Has large dense spikes of amaranth-red flowers. Leaves glossy green.

VERONICA CUVIESSEJOIDES—Globular shrub with numerous slender branches clothed with scale-like leaves which give it the appearance of cypress. Resembles the globular Boxwood.
Perennial Plants for Fall Planting

Ready for Delivery—Postage Free

Perennial plants listed on pages 27 and 28 should be planted in the fall. They will establish themselves by making a good root system and will bloom profusely in the spring and summer following. Perennials started from seed in the fall or spring will not bloom the first year like plants set out in the fall. All varieties offered are the favorites for fall planting.

Few plants are more popular than “Perennials.” They can be so arranged in beds or borders that you may obtain a good landscape as well as blooms almost the year round.

GAILLARDIA “SUNSET” 50c Each; $5.00 Per Dozen, Postpaid A wonderful novelty. The petals are thick and leathery. Flowers measure three inches in diameter. Each flower runs from bluish shades of bronze to scarlet and gold on the ends of each petal.

BUSH ROSES

75c Each; 6 for $4.00; 12 for $7.50
DEivered FREE

COLUMBIA (Hybrid Tea)—The open flower measuring six inches across. Color, true pink, deepening as it opens to glowing pink. The shades all become more intense until full maturity of the open flower is reached, and its color is enduring.

HADLEY (Hybrid Tea)—One of the choicest of the dark crimson scarlet Roses. Finely shaped buds and long stems. Remarkable, dense shade of dark red. Buds measure over an inch in diameter.

HENRY V. MACHIN—Intensively black-grained crimson-scarlet blooms of globular shape carried on rigid stalks. Flowers very large.

HOOSIER BEAUTY (Hybrid Tea)—A Grand Climber—Glowing crimson-scarlet with darker shadings; buds of good length and splendid shape; ample petalsage with a texture like velvet, opening into a magnificent bloom of dazzling brilliance; fragrant.

LOS ANGELES (Hybrid Tea)—A Wonderful Rose—By all odds, one of the finest Roses ever introduced. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of a lumineous, flame-pink, toned with coral and shaded with translucent gold at the base of the petals.

MRS. LOLITA ARMOUR—Its coloring is unique; large flowers; double coral-red with golden coppery red suffusion; new climbing Rose; probably the strongest climber.

65c Each; 6 for $3.50; 12 for $6.50
DEivered FREE

BELLE SIEBRECHT (Hybrid Tea)—Very large, well formed, rose pink, and sweetly perfumed. Buds long and tapering. Vigorous grower and free bloomer.

GENERAL JACQUEMINOT (Hybrid Perpetual)—Very popular, large, fragrant, brilliant red. One of the oldest Roses, still one of the most loved.

LADY HILLINGTON (Tea)—A beautiful Tea Rose which has created quite a sensation. Bright saffron-yellow with coppery-orange shades. One of the most attractive in its color. Buds long and pointed.

MADAME EDWARD HERBIEIT—Or Daily Mail Rose—(Hybrid Tea)—The new French Rose which won the $5,000 offered by the London Daily Mail. Long, pointed buds, of a deep coral red shaded with yellow at the base. Opens into a flower of a beautiful shade of rosy scarlet tinged and flushed with yellow. The wonderful coloring is a revelation. One to see. "May I take a copy of this Beauty—" was the comment of the public on this Rose.

MME. CAROLINE TESTOUT (Hybrid Tea)—Almost too well known to require description—official city flower of Portland, Oregon. Flowers bright pink, large size; beautifully formed; free blooming. Vigorous and healthy.

OPHELIA (Hybrid Tea)—A very lovely Rose. Flowers of a salmon-pink shaded rose, beautifully formed buds; long stems carrying flowers erect.

CLIMBING ROSES

65c Each; 6 for $3.50; 12 for $6.50
DEivered FREE

CLIMBING CAROLINE MME. TESTOUT (Hybrid Tea)—This wonderful climber the same as the free flowering Mme. Caroline Testout. Very vigorous climber, canes making a growth of 14 feet in a season. Every garden should have one of these climbers. Flowers very large bright pink.

CLIMBING PAPA GONTIER (Tea)—Rosy crimson with carmine center. Flowers the same as the bush variety. Very free, strong grower. A wonderful free-blooming climber.

PINK CHEROKEE—Flowers single, very large; in color a ruddy pink with conspicuous yellow stamens. Foliage is beautiful, being evergreen and rich, deep lustrous green.

DR. W. VAN FLEET (Wichuriana)—Flowers four and a half inches in diameter. Remarkable, delicate shade of flesh pink on outer surface, deepening to rosy flesh in center. Beautiful shiny green foliage.

WHITE MAMAN COCHET (Climbing Tea)—In form and substance the flowers are identical with the Pure White Maman Cochet—but on account of its vigorous habit, the climbing variety is larger and more beautiful than the bush.
Planet Jr. Farm and Garden Tools

No. 4 PLANET JR. HILL AND DRILL SEEDER AND SINGLE WHEEL HOE COMBINED

The most popular and useful combined Seeder and Wheel Hoe on the market today; more of them in use than any other. Sows seeds in straight drills or drops them in hills, 4, 8, 12 or 24 inches apart. Plants all seed common to present day agriculture.

The No. 4 as a Single Wheel Hoe will do all necessary Cultivating work. $32.50.

No. 25 SEEDER AND DOUBLE WHEEL HOE COMBINED

Very popular where there is enough work to warrant using a Double Wheel Hoe and Seeder. Made to fill the demands of those who do not wish to buy Seeders and Wheel Hoes separately. The seeding attachment works just about the same as that of the No. 4 machine. $26.75.

No. 3 HILL AND DRILL SEEDER

The most popular Seed Drill for the market gardener. Hopper holds three quarts of seed. The feed wheel is thrown out by being drawn backwards. The hill dropping is simple and reliable, spacing hills either 4, 8, 12 or 24 inches apart. Changes of distance between hills quickly made by changing spacing wheel from hill to hill. $31.50.

No. 35 Seeder Attachment

This machine meets an insistent demand for a small seeder attachment for use with Wheel Hoes. Can be used with any Planet Jr. Wheel Hoe or Garden Plow, with the exception of the Fire Fly Plow. Sows a 5-cent packet of seed as accurately as a full hopper; in a straight line, at the proper depth, and economically. $6.00.

No. 19 PLANET JR. GARDEN PLOW AND CULTIVATOR

One two-inch cultivator tooth. One ten-inch sweep. One plow. One 5-prog cultivating attachment. This attractive implement is especially designed for the farmer’s garden work though it offers to every one with either field or garden a cheap and effective tool for wheel hoe operations. Price $6.00 f. o. b. San Jose.

Hudson Garden Cultivator

Cultivator Attachment — High carbon steel adjustable in width, with center teeth removable. Teeth are tempered. Can be detached and used with a handle in beds and corners not otherwise reached.

Weight—12 lbs. each. No. P31, Garden Cultivator, 5-tooth adjustable cultivator $3.75.

Write for complete booklet descriptive of Single and Double Wheel Cultivators, Hoes, Milling Flows, etc.

No. 12 DOUBLE AND SINGLE WHEEL HOE COMBINED

The most popular Double Wheel Hoe in the Planet Jr. line. Can be used by anyone. Equipment consists of One Pair of 6-in. Hoes, 4 Steel Cultivator Teeth, One Pair of Plows, two Leaf Lifters, all oil tempered. This combination of tools enables one to cultivate their garden thoroughly and often. Handles and other cultivating attachments can be added as required. $13.50.

No. 16 SINGLE WHEEL HOE

A very strong but easily handled Single Wheel Hoe, with an assortment of cultivating attachments that have proved to be the best in use today, and the most desirable. Steel wheels, steel frames; practically indestructible. Handles are adjustable in height. All wheel hoe tools are of special pattern, carefully tested. The Plows are of superior design complete with landside; large and capable of heavy work. $11.00.

No. 119 GARDEN PLOW AND CULTIVATOR

A high wheel cultivator that will appeal to all those who prefer a high wheel tool for their garden work. Where the soil has not been so thoroughly and carefully prepared, the high wheel undoubtedly makes an easy running tool. The variety of cultivating attachments including one 1/2-in. Cultivating Tool, one 1 1/2-in. Cultivating Tool, one Plow and one Reversible Scuffle. Blade, are capable of doing all your garden work from early Spring until Fall. The price is very moderate and the service and long years of wear you will derive from its use, will convince you that Planet Jr. quality gives you full value for your money. $6.50.

Hudson Seeder and Single or Double Wheel Cultivator

As a seeder, this machine opens the furrow, drops the seed, closes the furrow, packs the earth, and marks the next row— all in one operation. The seed regulator is made entirely of brass, with openings die cut to assure absolute uniformity. This gives perfect control of the seed flow and insures a uniform drop. Sows all seeds from beans down to the finest garden variety, in continuous drills, or hills 4, 6, 8, 10, 12 or 24 inches apart. Adjustments in furrow opening shoe and furrow cover permit planting at any depth up to 5 inches.

Standard Package—One in wood box, handles bundled separately. Shipping weight 56 pounds. No. 200, Seeder. All extra tools shown $18.50. No. 203, Seeder, Single Wheel. All extra tools shown $17.25. No. 205, Seeder only. Without extra tools $15.60.
SPRAYERS AND SEEDERS

No. 1—HUDSON IDEAL SPRAYER

This outfit is equipped with a reserve air pressure tank and gauge. Once the desired pressure has been reached, this reserve air chamber enables the operator to maintain an even high pressure with less effort. In fact, the operator can stop pumping and spray several minutes before the pressure is reduced to a point where further pumping is necessary. Shipping weight—Crated securely, 116 pounds.

Model 33—Galvanized supply tank, complete .......... $42.10
Model 32—Without Reserve Tank, 30 lbs. .............. $26.50

No. 5 and No. 51/2—ALL PURPOSE SPRAYER

A high pressure yet lightweight and durable Sprayer made entirely of brass, having a double-acting pump and will generate a pressure of 180 lbs. per square inch.

No. 51—Galvanized Knapsack—4 gal. capacity, including No. 5 Pump .......... $42.10

No. 6—DOUBLE-ACTING BUCKET-PUMP

A powerful Bucket Pump which easily generates a pressure of 240 pounds per square inch. It can be attached to any spraying hose and was designed for permanent use. Made of brass, equipped with a brass suction strainer as well as a strainer in the nozzle.

USES—For watering trees, shrubs, gardens, field crops and for handling whitewash and cold water for all purposes where a barrel or bucket can be transported.

No. 7—HAND BUCKET AND BARREL PUMP

Made almost entirely of brass. The foot rest, top casting and handle are made of iron. A jet of liquid under pressure furnishes the required agitation.

USES—For spraying trees, shrubs, gardens, field crops and for handling whitewash and cold water for all purposes where a barrel or bucket can be transported.

No. 9—COMPRESSED AIR SPRAYER

The latest construction in Compressed Air Sprayers. It is high class and warranted against mechanical defects. Brass screw cap is so constructed that the bearing presses directly upon rubber washer and metal parts so that it cannot turn and be destroyed. Capacity, 1/2 gallons.

USES—For spraying field crops, shrubs, vines, poultry houses, removing wall paper, disinfecting, creosoting shingles, applying floor oils and for general purposes.

No. 12—COMPRESSED AIR SPRAYER

A convenient size Compressed Air Sprayer of new design. It combines all the good features of the original Auto-Spray in addition to a new novel feature which makes it possible to carry and operate with one hand, thus leaving the other hand free to hold back the foliage and prepare for spraying. The tank is of 1/2 gallons capacity.

USES—For spraying small garden plots, shrubbery, potatoes, all low growing vegetation and applying floor oils.

No. 22 and No. 28—HANDATOMIZER

A strong Atomizer which is single-acting and throws a fine mist of spray. The Pump is furnished with an oil treated leather cup that lasts more than one season.

USES—For all light spraying. It is especially adaptable for use in spraying disinfectants, insect poison and fly oils.

No. 26—CONTINUOUS ATOMIZER

The Auto-Spray No. 26 is so designed that the pressure generated on the down stroke of the plunger allows this Sprayer to produce a continuous mist-like spray.

USES—For spraying garden crops, for use in greenhouses, for handling disinfectants and fly oils. It can be used with all spraying solutions.

No. 101—CLASS TANK ATOMIZER

The long pump cylinder on this sprayer enables the operator to stand erect and direct spray at desired angle. The container, being a regular quart size fruit jar, cannot cor- rode. No. 101 .......... $6.60 Postpaid

No. 43—WHEELBARROW SPRAYERS

A Pull Pump and hose with nozzle for general spraying. Frame forms loop in front of wheel for pulling purposes. Can be conveniently used in the orchard, field or for applying of whitewash or disinfectants. No 43 ........ $6.20

No. 42F—TRACTION SPRAYER

Builds up air pressure while in motion as shown by illustration. Regularly equipped with two nozzles, one on each handle for row crop spraying. One outlet can be plugged and can be attached to another for general all around spraying. Sufficient pressure can be built up in travel to spray from stop.

"NIP AND HOLD IT"

GARDEN SHEARS

for

GARDEN PRUNING

Made of high-grade shears and the latest holding attachment, especially designed for ladies' use.

Prune or pick, as desired, in ordinary operation of shears with one hand.

Notched blade makes cutting of large and hard stems positive and easy.

Pick anything from PANSIES to ROSES (on any length of stem) and hold such weights as heavy bunches of grapes.

Save excessive stooping, reaching and solicing of hands.

Free arm and hand may carry basket for cuttings; also umbrella for protection from rain or hot sun.

PRICE $1.05, POSTPAID

Ordinary Pruning Shears—$1.00, $1.50, $2.00, $3.50

HYACINTH GLASSES

Hyacinth Glasses: tall type (luster) amber, claret, pearl, turquoise, yellow and green. 50c each. 60c, postpaid, within the 3rd zone.

Culture in Glasses—

To grow Hyacinths in water, they should be placed so that the base of the bulb merely touches the water. The glasses should then be set in a cool, dark closet, or in the cellar, until filled with roots, when they may be brought into the light. Give as much fresh air as possible, and at a temperature of not over sixty degrees, until the spikes are developed. To put them at once into a room with a temperature of say seventy degrees would cause them to flower prematurely.

HANGING BASKETS

Strongly made with good, heavy wire. 6-in. diameter, 30c each, postpaid; 10-in. diameter, 40c each, postpaid; 12-in. diameter, 50c each, postpaid.

GREEN MOSS

For Hanging Baskets—One pound required for each basket. Lab., 25c, postpaid; 10-lb. sack, $1.50. Special prices for larger lots.

DIRECTIONS ON EVERY PACKAGE

"NAVO" MISCELLANEOUS OIL

An ideal spray for the control of BLACK SCALE, BROWN APRICOT SCALE, RED APHIS, WOOLY APHIS, PEAR THrips, etc. This spray stimulates the tree and has a softening effect on the bark.

This oil mixes readily with water to form a white solution. In the trees are heavily covered with MOLL and LICHENS and infested with SAN JOSE SCALE or ITALIAN PEAR SCALE the addition of Castorol Oil improves the killing power of the spray. 1 qt. can. 25c; 5 gal. can. $1.25; 10 lbs. $2.50; mailable. (If desired in barrels, let us quote you.)

"NAVO" BORDEAUX POWDER

The best and most generally used spray for BLIGHT, MILDEW, CURLED LEAF, PEAR SCAB, BROWN ROT, etc. In addition to its value as a fungicide it often appears to have a toxic effect on fruit trees when applied early, as in November or December spraying. Bordeaux spray on Apricot and Peach trees show more profuse blooming and darker, more glossy foliage. 1 lb. 25c; 5 lbs. $1.50. (If desired in large quantities, let us quote you.)

"NAVO" HOME MIX BORDEAUX POWDER

Our "Home-Mixed" Bordeaux Powder is put up in two separate measures. Bordeaux is dissolved in water, 2 parts of Bordeaux to 1 part of water, and mixed in a clean tank. Bordeaux is added to the tank after the Bluesoil is dissolved, thus there is no loss of time which so often happens when making the home-made Bordeaux. A spreader is incorporated into the Lime, so that "Home-Mixed" makes a spray which will spread and spreader better. 2 lbs., one each No. 1. 20c; No. 2, 50c; 10 lbs., five each No. 1 and No. 2, $2.00. (If desired in larger quantities, let us quote you.)

"NAVO" LIME AND SULPHUR SOLUTION

In offering a standard strength Lime-Sulphur solution we are convinced that there is less likelihood of danger of burning or other injury, also less loss of crystallization in containers, such as experienced with more concentrated solutions. Recommended for RED SPIDER EGGs, MOLL and LICHENS, PEACH LEAF CURLED LEAF, PEAR BLIGHT, RED APHIS, and PEAR SCAB. 1 gal. can. 60c; 5 gal. can. $2.00; mailable. (If desired in larger quantities, let us quote you.)

"NAVO" DRY LIME AND SULPHUR

For dormant spraying against such scale insects as San Jose Scale, Oyster Shell Scale, Peach Blight and Peach Curl Leaf. 1 qt. 30c; 1 gal. 60c; 5 gal. can. $2.00; mailable. (If desired in larger quantities, let us quote you.)

SLUG KILLER

Hydrated lime for killing slugs and snails. 3-lb. pkg., 15c; 10-lb. pkg., 45c. Mailable.

HOOKER PARACIDE FOR BORERS

(For use with Circular)

The Peach Tree Borer is the same borer that attacks nearly all stone fruit trees, such as Apricot, Peaches, Plums, Prunes and Almond.

Para-dichlorobenzene is the only known chemical which successfully controls the Tree Borer.

The use of Paracide does away with cutting and digging for Borers. Simply sprinkle one ounce around each tree, cover with dirt around the trunk, the fumes kill the borers without injuring the trees.

Also may be used to good effect in the spring.

SULPHURS

Neutral Brand

DUSTING SULPHUR (Registered)

Specially Ground for Us

Recommended especially for dusting. It adhered to the leaves and prevents waste. Neutral is a superfine flour of Sulphur, 99 per cent pure. Neutral is especially ground for dusting purposes. Neutral is ground as fine as flour, without reducing the Sulphur contents. A special finely ground crude Sulphur which by laboratory tests made February 21, 1933, shows 32.22% passing through a 200-mesh screen.

The absence of acid content makes it less severe on the eyes of the user and reduces likelihood of burning tender leaves and shoots. It is unnecessary to add a quantity of lime, gypsum, silica, etc., to “Neutral Brand” Dusting Sulphur because it is put through a special process to make it free flowing and prevent balling up and packing in dusting machine.
